It is important to provide quality jobs, entertainment and family opportunities for people to want to live here. I am a born-and-raised Springfield resident who came back after college. ## CHRIS DAVIS

Age: 37

Occupation: Account manager

Email: cdavis2@resourceoneoffice.com

Education: Juris Doctor, John Marshall Law School

Family: Wife Jennifer and stepson Jaylan

Affiliations/Community Activities: Foundation Leadership council at HSHS St. John's, American Business Club, DSI Better Blocks committee

What's your guiding principle in life? Be authentic. The most valuable gift you have to offer is yourself!

Why did you choose your current career? I was never great at "choosing" a career - I don't think a lot of people are. Sometimes you are just lucky enough to have your career choose you. In my case, a lot of things came full circle and I'm where I know I was meant to be.

What's your greatest hope for Springfield? I envision a Springfield that is driven by a shared vision, passion and ambition to be a lighthouse to help right the ship of our state. We should be a center of thought leadership for Illinois, not the symbol of what has been done wrong for many years.

## TRUMAN FLATT

Age: 32

Occupation: Vice President of Truman L. Flatt & Sons and Executive Officer of Buckhart Sand & Gravel, Lincolnland Concrete, Pana Limestone Quarry and Litchfield Bituminous

Email: Truman@Trumanlflatt.com

Education: Associate's degree, SIU Carbondale

Affiliations/Community Activities: National Rifle Association, Ducks Unlimited, National Wild Turkey Federation, Greater Springfield Chamber of Commerce, Associated General Contractors, Operating Engineers Local 965, Island Bay Yacht Club.

What's your guiding principle in life? Never receive without giving back.

Why did you choose your current career? Although Truman L. Flatt & Sons is a family company, I never felt pressured by my family to learn the business. I started taking an interest during my summers in college working at Buckhart Sand & Gravel. The more I learned, the more it sparked an interest in the paving side of the business. In 2013 we were able to open Lincolnland Concrete. Tradition and history are important to me. With these companies, I am blessed to be a part of a 90-year family tradition while making a historic mark on Springfield by paving its roads, highways and businesses.

What's your greatest hope for Springfield? To help it grow and prosper.

## KATIE DAVISON

Age: 39

Occupation: Executive director, Innovate Springfield

Email: kdavison@innovatespringfield.org

Education: Bachelor of Science, Speech Communication - Specialization in Organizational Communication from Southern Illinois University, Carbondale

Family: Husband Ryan

Davison, sons Arthur, Isaac and Jacob, and parents Michael and Linda Dunbar

Affiliations/Community Activities: Board member of the MacArthur Boulevard Association, founding committee chair of Bites on the Boulevard, advisory board member for the Old Capitol Farmers Market, member of Young Philanthropists, Downtown Springfield, Inc., the Greater Springfield Chamber of Commerce and Illinois Women in Leadership.

What's your guiding principle in life? Get up, dress up, show up and never give up -- stolen from a great woman (who was also a Katy).

Why did you choose your current career? A position that helps startup companies and nonprofits be successful and ultimately supports a vibrant and thriving community? In. All In.

What's your greatest hope for Springfield? My greatest hopes are that it continues to grow in an inclusive way, it supports new ideas and cultivates the tremendous assets we have.

## TATE HARTMAN

**Age:** 33

**Occupation:** Financial Advisor

**Email:** thartman@heartlandfinancialservices.org

**Education:** Master's degree, Clinical Psychology, Eastern Illinois University, Certified Financial Planner™ designation, College for Financial Planning

**Family:** Wife Danielle, parents John and Jackie and brother Zac (wife Maria)

**Affiliations/Community Activities:** President of Rotary Club of Springfield South, Springfield Jaycees treasurer, Brother James Court board trustee, member of the National Customer Service Association, Central Illinois Chapter.

**What's your guiding principle in life?** "People don't care how much you know until they know how much you care," a quote from one of my mentors, John Graham, CLU®. In order to be an effective financial advisor, my

clients need to know I understand their situation and their financial goals. So when I present a solution, they know I have crafted that solution with their priorities and objectives in mind. If I can help my clients in managing their assets, then we can work to achieve those financial goals. They will worry less, and, ideally, lead a more fulfilling life.

**Why did you choose your current career?** I enjoy helping people and making a difference in their lives. As I was completing my master's degree in clinical psychology, I knew clinical counseling was not going to be the right career choice for me, but I still loved doing research, crunching numbers and helping people. Working as a financial advisor fulfills those requirements for me, and my clients and I get to see the progress we have made by working together.

**What's your greatest hope for Springfield?** I hope Springfield becomes a hub for young professionals and families to live, work and play. We offer a lot of big-city amenities without the added cost. I have enjoyed growing up in Springfield. I hope other young professionals and families will take advantage of the same benefits Springfield has to offer.

## JEREMIAH WILLIAMS

**Age:** 36

**Occupation:** Construction company owner, operator and CEO

**Education:** Bachelor's degree

**Family:** Parents Sherry Williams and Ron Williams, brothers Justin (wife Megan) and Jesse Williams, niece Bella Williams and nephew Jay Williams

**Affiliations/Community Activities:** USAF/ANG member, veterans' memorial chairman, AMVETS member and high school track coach.

**What's your guiding principle in life?** God, country and family. I utilize the USAF core values as my strategy -- integrity first, service before self and excellence in all I do. I value being sincere to all, giving back, helping others, honesty and hard work.

**Why did you choose your current career?** I became involved with starting my own business because I was inspired by my dad and wanted to be like him. I realized through my experiences that people always need inspiration. If they saw me living my dream, it could be a boost of inspiration for my friends and military subordinates to try and do the same. Owning your own business can be helpful to others, especially in this economy. I have the ability to create jobs for those in need of one -- whether they have been laid off, have just graduated or are just unemployed because of the economy. This is also a good opportunity to be able to lead those with whom you work. I can surround myself with people who care about me and care about team success. It's all about being around positive people who will support you no matter what. It's such a great feeling to accomplish something you have been working so hard for. There is pride and joy in building something on your own.

**What's your greatest hope for Springfield?** Economic growth and small business success. I hope to see more people want to live in the city and I hope that more people want to raise a family in Springfield and not have to worry about high tax increases, etc.

## CLINT CARTER

**Age:** 36

**Occupation:** Co-owner Carter's Fish Market and business development for Silverfin Group, Inc.

**Email:** carterfish83@gmail.com

**Education:** Midwest Technical Institute

**Family:** Parents Mary Carter and Barry Carter, brother Benn and sister-in-law Jen Carter

**Affiliations/Community Activities:** Environmental philanthropy (invasive species control)

**Guiding principles in life:** I do my best to abide by the Golden Rule -- treat others as you want to be treated. I also hope to never lose my creative enthusiasm and vision.

**Why did I choose my career?** I didn't choose my career. My career chose me. My family's business was somewhat successful and I began my career by implementing processes and procedures to improve it. While doing so, I began to see the potential in the business. So I decided to do everything within my power to begin creating it into the business that I knew it had the potential to become.

**What's your greatest hope for Springfield?** My greatest hope for the city of Springfield is for our community members to support and respect one another so that the city can thrive and small businesses can continue to grow.

**What's your guiding principle in life?** "Hard work does pay off." My parents, two younger brothers and I moved to the United States from Vietnam when I was 14 years old. As the oldest child, while knowing limited English, I had to work extremely hard to not only achieve my own goals, but also to help my family. I devoted my time to school and to become the first person from my father's side of the family to graduate from college. My childhood experience has shaped me into the person I am today and my education has allowed me to have a successful career and the ability to travel the world.

**Why did you choose your current career?** I chose to be a financial advisor because I wanted to combine my skills with my personal interests to meet people with diverse backgrounds and help them realize their goals. Upon marrying my husband, whom I met in Indianapolis while he was in medical school, we relocated to Springfield for his urology residency with SIU. In 2016, I joined Sikich as an operations manager for their wealth management team to help advisors provide personalized service to their clients.

**Affiliations/Community Activities:** United Way 2018 board member and community builder's chair; Westside Rotary Club member and past president; Little Flower School Finance Council chair and junior high girls' basketball coach; Illinois CPA Society.

**What's your guiding principle in life?** If I'm not pushing myself beyond my comfort zone, I'm not really living. Life in this world is for growth and struggle. The only real failure in life is not trying.

**Why did you choose your current career?** I get the opportunity to be challenged every day in the public accounting world, work with great people and great clients, and learn from community and business leaders throughout central Illinois. Being able to fulfill the role of a trusted adviser and helping my clients grow and prosper is very rewarding.

### JAY ROSZHART

**Age:** 33  
**Occupation:** Vice President, Ambulatory Networks and Clinical Integration, Memorial Health System (Healthcare Administrator)  
**Email:** roszhart.jay@mhsil.com  
**Education:** Master's degree, Healthcare Administration  
**Family:** Wife Katy and children Liam and Sophie  
**Affiliations/Community Activities:** United Way of

Central Illinois' Health Vision Council member, United Way of Central Illinois' Venture Grant Committee member, American College of Healthcare Executives fellow.

**What's your guiding principle in life?** Keep questioning to keep learning. Keep confident, but be humble. Keep truthful, but do so with grace. Keep challenging yourself and your beliefs to keep living a fulfilled life. Boldly go where no one has gone before.

**Why did you choose your current career?** My family has always been involved in health care and I knew early on that I wanted to be involved as well. My parents instilled in me a drive to work hard, be humble and help those who need it. Through early jobs in health care, college and grad school, I found the best way for me to fulfill that drive and have a successful career was by being involved in the administration of health systems. I believe that using my skills in leadership, analytics, team building and process design is how I can best heal, improve the health of individuals and help to make my community a place of wellness.

**What's your greatest hope for Springfield?** That through engaged partnerships, Springfield and its surrounding area becomes a beacon for improving the health and wellness of its residents across all aspects, be it physical, mental, behavioral, spiritual, social, emotional or financial.

### DR. KIRSTEN DAVIN

**Age:** 39  
**Occupation:** Occupational Therapist, nationally renowned speaker and educator, entrepreneur, clinical consultant and real estate investor

**Email:** kirs10k@aol.com

**Educator:** Doctorate, Occupational Therapy, Rocky Mountain University

**Affiliations/Community Activities:** Deputy fire chief and medical training officer for Pleasant Plains Fire Protection District where I have served for 16 years as a firefighter and EMT.

**What's your guiding principle in life?** I actually have three, all of which have served me well. "Never get so busy making a living that you forget to make a life," "Life is too short to be living someone else's dream" and "You can't steal home with your foot on third."

**Why did you choose your current career?** I wish I had an amazing, motivating story to tell. The truth is my great grandma fell over a hose in her garden and broke her leg when I was 16. I went to therapy sessions with her and thought I liked it. Then, in college, the prerequisites for the physical therapy program included math, physics and chemistry (no thanks) which I did not need for occupational therapy (OT) as the OT requirements were mostly psychology, anatomy and physiology. So, OT it was.

**What's your greatest hope for Springfield?** My hope is that the city will aim to support and encourage both residential and commercial property improvements, and also promote and sustain the return of retail to the area, starting with The Pasta House!

My father is a physical therapist and I've always been intrigued with health care. I really believe in Memorial Health System's mission and I feel personal fulfillment by being able to serve those who directly care for patients and their families. I feel as though I am able to make a difference in the lives of people.

**What's your guiding principle in life?** Work hard and treat others with respect. Finding the balance in life is not always easy, but knowing I have put forth my best effort leaves me with

a feeling of both personal and professional fulfillment.

**Why did you choose your current career?** I have found my position with the Illinois Senate to be demanding in the most fulfilling way. I have been constantly challenged in my career, both from policy and political perspectives, as well as in the communications field where we have had to respond to tremendous changes and innovations over the last 15 years. However, I can say without a doubt my Statehouse family is the reason I have remained at the Senate. I have the pleasure of working with dedicated, hardworking individuals whom I enjoy and respect. I cannot say enough good things about the fantastic professionals I have been able to learn from and work with over the years.

**What's your greatest hope for Springfield?** I would like to see Springfield continue to flourish. Whether by drawing additional employers and jobs to the region, continuing the already impressive revitalization of our downtown district or investing in the area's unique historical gems, I am hopeful that Springfield will experience sustained growth and continued development due to the innovative thinking of community leaders and an engaged and enthusiastic public.

## JENNIFER CREASEY

**Age:** 36

**Occupation:** Senior Director of State Relations, Office of Governmental Relations for the University of Illinois System

**Email:** jcreasey@uillinois.edu

**Education:** Master of Arts, Political Studies, University of Illinois, Springfield.

**Family:** Husband Justin, son Mac and daughter Quinn

**Affiliations/Community Activities:** YMCA board member, Edgar Fellows Program, Community Foundation for the Land of Lincoln Young Philanthropists, University of Illinois alumni in government and Blessed Sacrament Church

**What's your guiding principle in life?** I try to remember that the only real failure in life is not trying or asking for what you want to achieve. Do not be afraid to take on new challenges and risks. I try to stay positive that good will come from my focused efforts and any idea is worth trying.

**Why did you choose your current career?** In fourth grade, I went to "take your daughter to work day" with my uncle who was working in the State Capitol. I loved the importance of the House and Senate floors, and the idea that I was surrounded by elected officials doing the work on behalf of the state's residents. From there, I focused on political science and government. I worked for the U. S. House of Representatives in high school. After numerous internships, I graduated from UIUC with a degree in political science and speech communications. I received the Dunn Fellowship in the Governor's office and built my career from there. Afterwards, I worked for AARP Illinois. I am now in my dream job representing the U of I system in state government and strive to represent and tell the amazing story of the university's students, faculty, staff and alumni.

**What's your greatest hope for Springfield?** My vision for Springfield is that it can be the home of innovation and policy through leadership. The capital city is where innovative ideas should reside. Springfield can and will be a place where professionals and families can live affordably in an environment that is thought-provoking, forward-thinking, entertaining and comfortable. The Springfield community is uniquely positioned to be all of these things.

## AMANDA BROTT

**Age:** 39

**Occupation:** Chief Operating Officer, Hope

**Email:** abrott@hope.us

**Education:** Master's degree, Behavior Analysis and Therapy  
**Family:** An abundance of family who are also friends, friends who are more like family and two children, Samuel and Matilda

**Affiliations/Community Activities:** Member of Illinois Autism Task Force, Education Committee for Illinois Association of Rehabilitation Facilities.

**What's your guiding principle in life?** My guiding principle is to live a life of love. In all decisions and choices I make, I try to challenge myself to ensure that those decisions are made with love at the forefront. Personally and professionally, love isn't always the easiest way out or the simplest decision to

make. However, if love guides you, the pieces will likely fall into place.

**Why did you choose your current career?** I fell into the field of human service quite by accident. At 14, I began working at a camp for children and adults with developmental/physical differences. From that point on, I knew that's what I needed to do. People will often say that it takes a special person to work in this field. I actually feel pretty selfish getting to go to work loving what I do every day. Who else gets to feel this good, make these differences and have this much fun? We get to be purposefully and meaningfully silly every day. I'm truly the lucky one.

**What's your greatest hope for Springfield?** I genuinely hope for inclusion. Not just those with developmental or physical differences, but for all people. At Hope, we often say that we are not only preparing our kids for the world, but preparing the world for our kids. My greatest wish is that Springfield be on the leading edge of that, being prepared to welcome and include all people into its fold.

## JOSHUA HOUSER

**Age:** 36

**Occupation:** Environmental lawyer

**Email:** Joshua.Houser@heplerbroom.com

**Education:** Juris Doctor

**Family:** Wife Page and daughters Grace, Genevieve and Ginny

**Affiliations/Community Activities:** Lincoln Land Down Syndrome Society president, Sangamon County Bar Association member, Illinois State Bar Association member, South Carolina Bar Association member

**What's your guiding principle in life?** Do the best job that you can on everything that you do.

**Why did you choose your current career?** I have always been interested in the natural sciences, so I earned my bachelor's degree in biology and worked for several years after college as an ecologist and environmental consultant. During those years, I worked with my company's client representatives, including their environmental lawyers, and through that experience I developed my interest in environmental law. That interest led to my decision to attend law school to become an environmental lawyer. Working in private practice provides me with the opportunity to continue working with a variety of companies on a wide range of environmental issues, which I really enjoy.

**What's your greatest hope for Springfield?** As a husband and the father of three young children, my hopes for Springfield these days tend to focus on opportunities for kids and families. There are many things about Springfield that help make it a good place to raise a family. One hope I have is that businesses tailored towards children and family activities, such as the soon-to-open Kidzeum, continue to develop here.

## AMBRA KNOX

**Age:** 39

**Occupation:** Project manager, Crawford, Murphy & Tilly, Inc.

**Email:** aknox@cmtengr.com

**Education:** Master of Science, environmental management, University of Maryland University College

**Family:** Son Ori, parents Robert and Dixie Deering, and sisters Tamico, Jenikka, Tierra, Kyrsta and their families

**Affiliations/Community Activities:** Den leader and treasurer for Cub Scout Pack 320 in New Berlin, Certified Member (C.M.) of American Association of Airport Executives, member of the International Right of Way Association.

**What's your guiding principle in life?** Treat others the way you would want to be treated, be honest and fair, approach all you do with integrity, step up to a challenge, when needed, as well as know when to step back and let others prevail.

**Why did you choose your current career?** I think it chose me. I originally pursued professional piloting which then morphed into aeronautical science. After graduating from college, I took an aviation planner position at CMT and began learning how airports develop and expand and the regulations they are mandated to follow. This led to a master's degree in environmental science as it is imperative to understand how development impacts the environment. Ultimately, development impacts people and at times requires land acquisition. Therefore, I began learning how to acquire land and/or easements under the federal Uniform Relocation Act. My career has been challenging, rewarding and ever-changing.

**What's your greatest hope for Springfield?** My greatest hope is for Springfield to continue to strive to be the quintessential Midwest community that offers families a wonderful place to call home.

### CHRISTY JOHNSTON

**Age:** 38  
**Occupation:** Speech language pathologist and owner of Time 2 Talk  
**Email:** cbeyers@yahoo.com

**Education:** Master of Arts, Speech Language Pathology, Northern Illinois University  
**Family:** Husband Aaron and kids Madeline, Kate and Lexi  
**Affiliations/Community Activities:** American Speech-Language Hearing Association member, former board member of the Pregnancy Care Center, Christ The King Parish member, Christ The King School classroom and activities volunteer, Girls on the Run of Central Illinois volunteer and coach, Capital Area Volleyball Club coach.  
**What's your guiding principle in life?** My guiding principles in life are to always rely on your faith, don't sweat the small stuff, be kind always and be the best version of you.  
**Why did you choose your current career?** I have always had a passion for seeing young children be their best. Helping a little child communicate is the most precious gift one can give to another. It lasts for years and is life changing. If anyone has ever been unable to communicate or has lost the ability to communicate, they understand the importance of the work of speech language pathologists. When I was 8 years old, my great uncle had a stroke and watching his recovery and the impact the therapists had on his family and his ability to communicate with us has been something that changed all of our lives and has stuck with me.  
**What's your greatest hope for Springfield?** My greatest hope for Springfield is to see our community stay full of honest, hardworking and focused individuals who bond together to make each other and the entire community better.

### JAMIE SINGER

**Age:** 38

**Email:** jsinger@IllinoisNationalBank.com  
**Education:** Attended Lincoln Land Community College  
**Family:** Husband Brandon, son Braylon and daughter Jayla  
**Affiliations/Community Activities:** I am an avid volunteer for many community events and

activities throughout the year. I currently serve as treasurer for my son's baseball organization, Batbusters Baseball. I volunteer at my children's school when time allows. Some previous service opportunities include volunteering with The Matthew Project, teaching the kindergarten PSR at my local church and volunteering in District 186 with Girls Scouts where I educated young girls on financial literacy. I am very passionate for the disabled community and youth, and love to devote my time to organizations centered on these groups.

**What's your guiding principle in life?** Hard work pays off. This has shaped how I have approached many of the challenges and new experiences in my life, and I believe my drive and determination have led me to where I am today. Working in the financial industry with no physical paper, I had to work hard to prove myself, and I hope that may encourage others who are in a similar situation.

**Why did you choose your current career?** It kind of chose me. I started as a part-time teller through a work program my senior year in high school. I really enjoyed it, so I continued to work at the bank while attending college. After over 20 years in banking, I can honestly say that I wake up each day and still enjoy my work. I have truly loved working for INB since 1999.

I wanted to join and create an environment where systems/teams can help others reach their full potential. UIS allowed for that concept to continue flourishing for me. Now I am able to impact the reality for students and those around me in a positive manner.  
**What's your greatest hope for Springfield?** I hope that all children, but of course those children from many of our most isolated communities, begin to feel and see the benefits of diversity, equity and inclusion. I also hope that policies, procedures and practices around those aspects of life will become so pervasive and fundamental in our institutional structures that these children will not have to question the integrity of our government at any level. Finally, I hope that we create outlets for our future generations to succeed in whatever they do.

**What's your greatest hope for Springfield?** Springfield is such a wonderful community with much to offer its residents. My greatest hope is that the community continues to grow, both from an economic and social perspective. We have to find creative ways to attract businesses and young professionals to the area and ultimately to support those businesses and retain local talent. Additionally, we need to encourage individuals in the community to get involved by donating their time, talent and treasure.
